

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Credit Suisse (Lux) Security Equity Fund (until 04.07.2024)

UBS (Lux) Security Equity Fund (as of 05.07.2024)

Legal entity identifier: 549300XRZKN86MHX7E55

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ **Yes**

☐ It made **sustainable investments with an environmental objective:** ____%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☒ ☐ ☒ **No**

☐ It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the financial product:

A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

● **How did the sustainability indicators perform?**

This sub-fund was migrated to UBS Asset Management during the financial reporting period. From the date of migration onward, ESG data has been calculated using UBS's methodology and systems, which may result in deviations from data reported in previous periods.

- The UBS ESG blended score of the financial product was lower than that of its benchmark.
 - UBS blended score of the financial product: 6.38
 - UBS blended score of the benchmark: 6.49
- 69.86% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

● **...and compared to previous periods?**

During the previous reference period 2023/2024:

The table below shows the output of the Sustainability Indicators applicable to this Subfund as of 31.05.2024. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 8.40%, AA: 35.04%, A: 22.82%, BBB: 19.74%, BB: 13.30%, B: 0.00%, CCC: 0.41%, Not ratable**: 0.30%, No data coverage**: 0.00%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	5.54	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)
Social pillar score	4.82	Portfolio aggregate social pillar score: 1 (lowest) – 10 (highest)
Governance pillar score	6.15	Portfolio aggregate governance pillar score: 1 (lowest) – 10 (highest)
ESG controversy flag	Green: 76.83%, Yellow: 16.17%, Orange: 6.70%, Red: 0.00%, Not ratable**: 0.30%, No data coverage**: 0.00%	Investment exposure by ESG controversy flag: Green: 0–100% Yellow: 0–100% Orange: 0–100% Red: 0–100%
CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as

stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

During the previous reference period 2022/2023:

The table below presents data from the previous reference period (as of 31.05.2023). The data may differ compared to the previously published report as the most recently available data was taken into account, as the data provider(s) may have retroactively updated some figures. While the sustainability indicators have been monitored continuously during the reference period, the data below does not represent an average for the reference period.

More information about the data sources and applied methodologies for each Sustainability Indicator can be found online at: www.credit-suisse.com/esg.

Sustainability Indicator*	Portfolio	Indicator Output
ESG Rating	AAA: 5.65%, AA: 35.84%, A: 21.05%, BBB: 28.48%, BB: 6.29%, B: 0.98%, CCC: 0.44%, Not ratable**: 0.97%, No data coverage**: 0.29%	Investment exposure by ESG Rating: AAA (highest): 0–100% AA: 0–100% A: 0–100% BBB: 0–100% BB: 0–100% B: 0–100% CCC (lowest): 0–100%
Environmental pillar score	5.58	Portfolio aggregate environmental pillar score: 1 (lowest) – 10 (highest)

CSAM ESG exclusions***	Pre- and post-trade checks are in place to detect investments that breach the ESG exclusions. Any detected breach is escalated and remedied.	This indicator reflects that the portfolio complied with the applicable ESG exclusions as described in the exclusion section of the website (during the entire reference period, CSAM adhered to ESG exclusion criteria, as stated in the CSAM Sustainable Investing Policy).

* None of the Sustainability Indicators were subject to an assurance provided by an auditor or a review by a third party.

** These categories can show a negative value. This can be caused by negative committed cash positions and the use of certain types of derivatives (such as FX or OTC Collateral) due to trade settlement timing.

*** Note that the amount of investments that were restricted due to the ESG exclusions depend on the investable universe of the Subfund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

- ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable.

- ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption, and anti-bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.

1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded

1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

-UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

Information on consideration of PAIs on sustainability factors is also available in the sub-fund’s annual report.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31.05.2025

Largest Investments	Sector	% Net Assets*	Country
ZSCALER INC	Information Technology	3.15	United States
CLOUDFLARE INC - CLASS A	Information Technology	2.98	United States
CROWDSTRIKE HOLDINGS INC - A	Information Technology	2.92	United States
HALMA PLC	Information Technology	2.86	United Kingdom
VERISK ANALYTICS INC	Industrials	2.82	United States
INTUITIVE SURGICAL INC	Health Care	2.82	United States
IDEXX LABORATORIES INC	Health Care	2.82	United States
DIPLOMA PLC	Industrials	2.81	United Kingdom
EXPERIAN PLC	Industrials	2.75	Jersey
DORMAKABA HOLDING AG	Industrials	2.74	Switzerland
STERIS PLC	Health Care	2.74	Ireland
CYBERARK SOFTWARE LTD/ISRAEL	Information Technology	2.72	Israel
HEICO CORP	Industrials	2.63	United States
INTERTEK GROUP PLC	Industrials	2.61	United Kingdom
PALO ALTO NETWORKS INC	Information Technology	2.60	United States

*Minor differences with "Statement of Investments in Securities" might occur due to rounding and valuation differences in production systems.

What was the proportion of sustainability-related investments?

Not applicable

● *What was the asset allocation?*

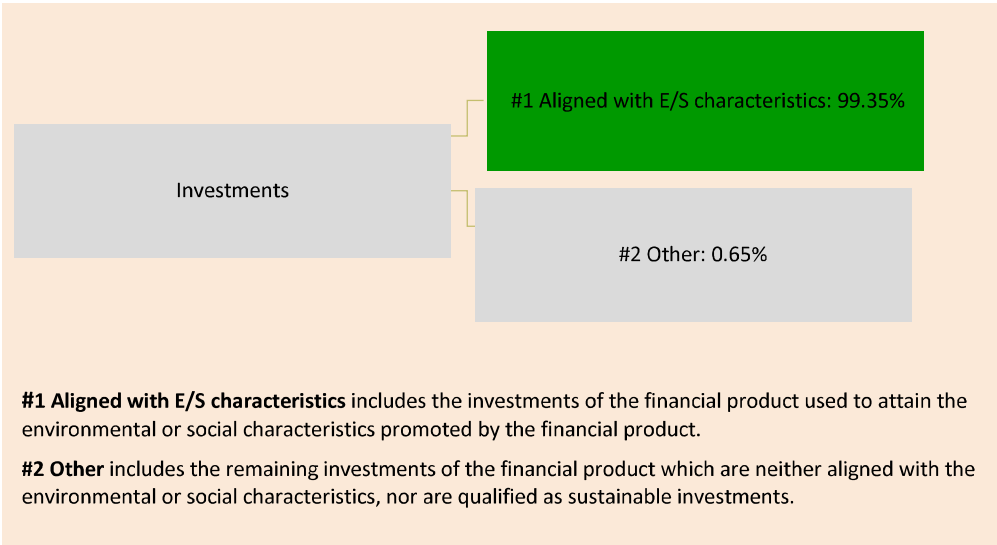

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.05.2025.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

*Minor differences with “Statement of Investments in Securities” might occur due to rounding and valuation differences in production systems.

In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.
